City.

Dear Sir:-

copy

Please note the attached letter addressed to the Penn. Fuel Co. You will please consider their cars set on the outside when their tracks will not accomodate them. You must not fail to collect car service on all such cars. I think there are several cars now that will accrue car service which must be collected.

Kindly advise me if this meets your approval.

Yours truly,

Superintendent

J

City.

Gentlemen:-

You are hereby advised that cars that can not be placed in your yards owing to the coal on the railroad tracks, will be considered set on the outside of your yards and car service collected accordingly.

This will continue until your tracks are cleared so that the engine can do ordinary switching without running against loose coal on the tracks.

Yours truly,

Superintendent.

J.
