Mr. J. J. Archer,

D.F.A., N & W. Ry.,

Columbus, Ohio.

Dear Sir :

Referring to your communication of the 22nd inst advising us of the rate on molasses from Baltimore to Athens. We will, of course, protect the divisions as shown, but for the sake of having our records complete we would ask that you kindly advise upon what basis the divisions were arrived at.

Yours truly,

H. B. Dunham

General Freight Agent.

We are advised by our agt Athens that consignees of the Car malasses have been advised by the shippers that they namely shippers will have nothing more to do with the Consignment as they hold the railroad Companies receipt for delivery in good order. We shall have to send this shipment to storage at once as we cannot afford to hold Consignment any longer. If you have any

Your file 1023. Mr Dunham of the Hocking valley advises that the consignee has been advised that the shipper will have nothing to do with the car of molasses now at Athens. They hold the company's receipt for delivery in good order. The Hocking valley say they will have to send the car to storage unless we can dispose of same at once. The barrels are still leaking. What shall be done with the syrup.

 Your wire 14th relative to shipment molasses at Athens of the B & P Company under date of Sept 6th advised me that the ~~shipment~~ shippers would settle the matter as long as they have not done so I would suggest the delivering line take such steps as they deem

Dear Sir :

Referring to yours 24th in regard to the car molasses at Athens. We are happy to state that the car molasses has been disposed of by Woods & Co. notifying consignee to take shipment and present bill for repairs and cooperage. We will advise as to the final outcome.

Yours truly,

H. B. Dunham
General Freight Agent
